About Me

Hi, my name is Elijah (he/him) and I am a full stack web developer based in Sydney.

I am skilled in both Web Development, C# and Unity Development. Over the last three years I have grown these skills from my time at SAE Institute and the tech start-up company 'Lumina VR'. I am constantly working to develop my skills, working on passion projects, game jams and more recently studying with the Coder Academy.

I am open to new opportunities that will help me take the next step in my career. I want to leverage my web and software development skills to enter the commercial web development industry.

I am well adept at working on Unity projects with a team using Github, I am practised in writing code that is legible to others and clearly commented, I have also created apps and games in Unity for Android, PC, and VR.

I am compassionate, I always strive for my personal best. I enjoy working in an environment where I can collaborate with others and be challenged with exciting and complex work. I hope when looking to bring new people into your workplace, that I am someone you consider.

The Design Process and Features

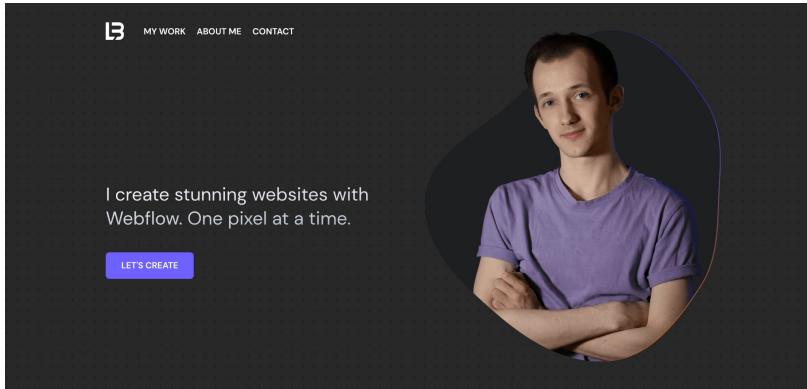

Design Features

For my site I wanted to have the site be:

- Clean
- Minimalist
- Have a dash of colour to pull focus
- Informative
- Engaging

I took inspiration from a few other sites, where I gathered what I would like my final product to look like.

Portfolios

Create Your Amazing Portfolio Website

Get Started → Watch how?

Creative Portfolio

For creatives with exceptional taste and talent.

Customize everything

Drop your work inside, customize and make it your own.

Designs

Native & Custom

See inspiring portfolios

My building experience made designer's mind. Clean and simple, it's evolution.

Happy Hues

Happy Hues is a color palette inspiration site that acts as a real world example as to how the colors could be used in your design projects.

Try changing the palette!

My name is Jacob

I am a professional programmer with more than 10 years of experience.

Curated colors in context.

Not sure what colors to use in your designs or where to use them? Happy Hues is a color palette inspiration site that acts as a real world example as to how the colors could be used in your design projects.

Try changing the palette!

... Happy Hues

Toggle palettes

Toggle section colors

Design Decisions

The way I implemented my design features were as follows:

Clean: Through the use of whites and greys, without messy text or too many images.

Minimalist: Reducing clutter, allowing for white space and a select range of colours.

Have a dash of colour to pull focus: Using bright colours and animations in buttons to bring some more life and personality into the site.

Informative: Having easy to read titles and social links in the footer.

Engaging: Having animations on hover for the blog and project blocks, as well as buttons to direct your flow on the website like the home icon and the “back” buttons.

Design and the Audience

Talk about how components and styling engages the audience.

- Typeface: Poppins
- Tone and language of copywriting

Favorite Parts

A screenshot of a resume website. At the top is a large emoji of a person with glasses giving a thumbs up. Below it is the text "Hi, I'm **Elijah**". Underneath is a bio: "I'm a fullstack web developer 🎮 game jammer 🎮 and VR enthusiast 🎮". A section titled "My Skills" lists "HTML", "CSS", "Sass", "Python", "Javascript", "Flask", and "React". A "About Me" section contains the text: "Hi, my name is Elijah (he/him) and I am a full stack web developer based in Sydney.". At the bottom is a button labeled "Let's start a conversation" with a "Reach out" button next to it.

A screenshot of a blog post. The date is "5th May 23". The author is "Elijah Fernandez". The title is "**CSS Shadows Simplified**". The post content is "Lorem ipsum dolor, sit amet consectetur adipisicing elit. At ipsum debitis laborum obcaecati molestias necessitatibus nesciunt?". A "Read post" button is at the bottom.

The text "Connect with me at the link below." is centered above two orange buttons. The left button is labeled "Reach out" and the right button is labeled "Resume".

Thank you
